# Lafayette College

E.J. Hudock
Jason Alley

One of the two Lightboard studios installed in Skillman Library. They are set up as a "one button" studio.

The studio in use for a demonstration of 3-d drawing by an Engineering dept instructor

In teaching spaces (classrooms and labs) we installed Lumens USB cameras on rolling stands with 25' USB cables.
The cameras have 120 deg field of view and active mics that pick up from 50 ft away.

We installed two podcasting studios in the library as well. They saw a good amount of use by students over the spring semester.
(the plexiglas was the most expensive component!)

Swarthmore College

Michael Jones
Language Center, Media Center and MakerSpace

Some students were in person ... some offering remote support
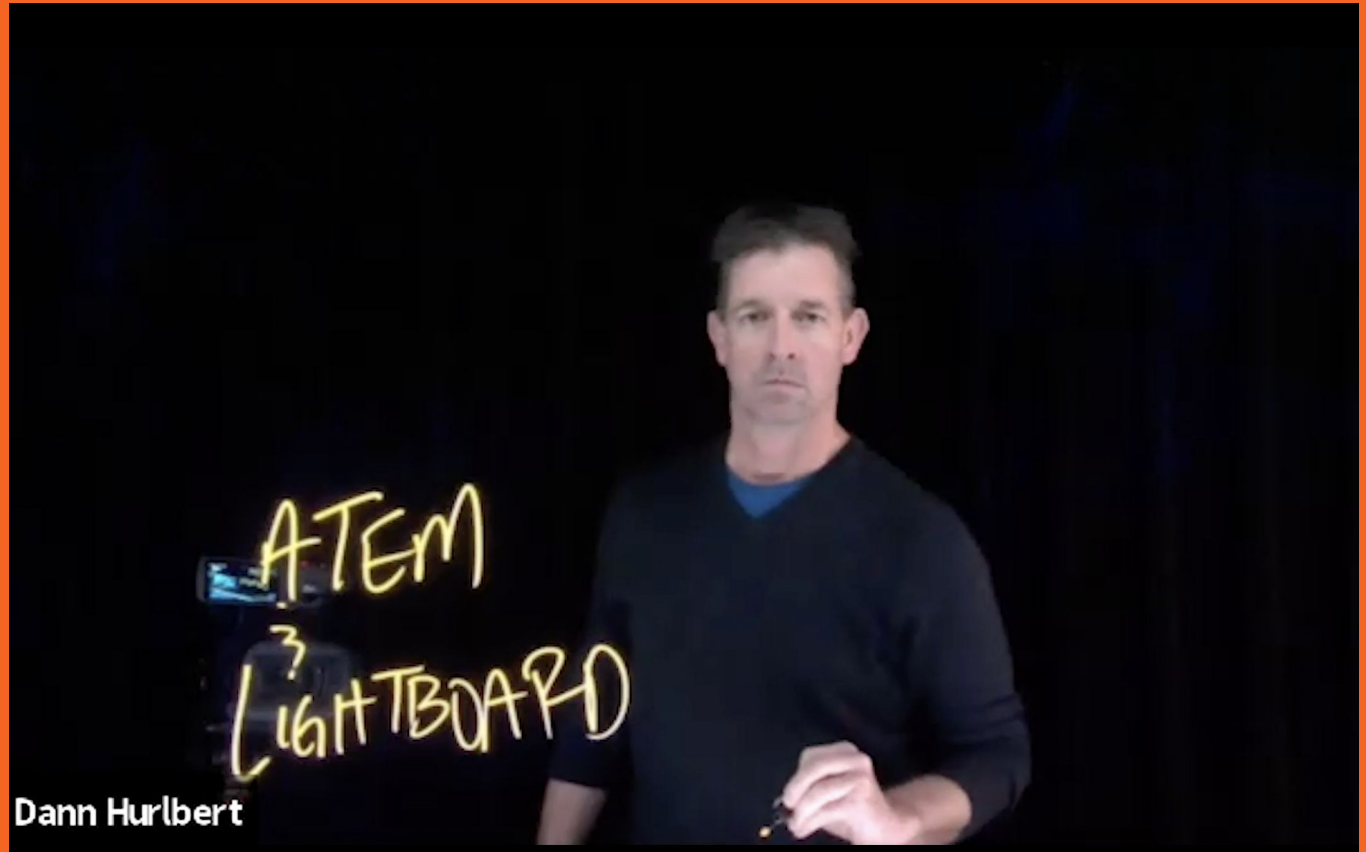

Remote Teaching Studios at Johns Hopkins.

Remote Teaching Studios - Carleton College

Incorporating Learning Glass/Lightboard

Our Implementation at Swarthmore. We had 4 rooms. Looking to save one installation.

Swarthmore Remote Teaching Studio.- Kohlberg 328

... with an additional room adapted for Sculpture.

We adapted
several spaces
for hybrid
learning using
rooms with dual
projection.
Looking for a
more permanent
setup.

… what else and what next

- **iPads for teaching**
- **Laptop program**
- **Hybrid Teaching Spaces (adapted)**
- **Learning Glass implementation**
- **Remote Teaching Studio for recording lectures and flipped materials, live remote lectures/conference presentations**
